ORGANIZATIONAL EFFECTIVENESS & OPERATIONS LEADER

Strategy Execution | Organizational Transformation | Leadership Development

Senior leader who diagnoses organizational problems, redesigns operating systems, develops leaders, and drives disciplined execution. Twenty-two years of progressively responsible leadership across operations, workforce transformation, talent selection, logistics, and organizational development, including oversight of organizations of up to 568 personnel and assets valued at \$372M. Known for stabilizing underperforming teams and operating functions, rebuilding accountability, and converting ambiguous priorities into measurable improvements in cost, throughput, quality, and readiness.

| • Business Transformation | • Talent Selection & Assessment | • Performance Management |
| • Operating Model Design | • Change Management | • Leadership Development |

PROFESSIONAL EXPERIENCE

UNITED STATES MARINE CORPS

2004 – Present

Director of Operations | Jacksonville, NC

01/2023 – Present

Direct operations for a regional leadership school serving more than 1,000 professionals annually. Hold decision authority for workforce performance, instructional execution, talent selection, process design, student outcomes, compliance, and continuous improvement while leading 12 instructors and coordinating with peer academies, curriculum developers, senior executives, operational customers, and international partners.

- Designed and implemented the academy's first formal instructor-selection process, a seven-stage model integrating candidate screening, behavioral interviews, live performance assessments, evaluator calibration, independent scoring, defined decision rights, developmental feedback, and auditable records.
- Replaced a fragmented curriculum-development process with a weekly cross-site operating mechanism, reducing update time from approximately 12 months to five weeks, redesigning 27 of 31 lessons, and increasing stakeholder satisfaction from 78% to a sustained 92%.
- Transformed a below-average staff into the organization's most cohesive and effective team by establishing clear standards, daily alignment, targeted coaching, and individual development plans; advanced five instructors to higher certification levels and produced two quarterly award recipients.
- Eliminated a manual enrollment bottleneck by implementing QR-enabled self-service intake and a standardized database, reducing processing time from 15 minutes to five minutes and eliminating transcription errors; expanded the model across six academies serving approximately 6,615 students annually.
- Established the academy's international student support capability from the ground up by securing fully funded certification and direct system access, standardizing pre-arrival and reception processes, and supporting 34 professionals from nine countries with no uncoordinated arrivals.

Director of Logistics & Operations | Jacksonville, NC

10/2019 – 12/2022

Directed operational planning, transportation, logistics, workforce readiness, resource integration, and execution for a 568-person organization supporting complex domestic and international requirements. Advised senior executives, coordinated across independent organizations, and translated strategic direction into executable operating plans.

- Challenged a proposed \$6.8M commercial trucking strategy, built a fully executable \$6.1M rail alternative, and secured senior approval after validating cost, training, site capacity, and operational risk; moved 5.78M pounds of cargo nationwide with zero service disruption and \$700K in cost avoidance.
- Directed planning and resource integration supporting 720 missions across more than 145,000 miles, transporting 34,678 passengers and 27,132 tons of cargo while sustaining uninterrupted daily support requirements.
- Redesigned a controlled inventory system covering approximately 2,690 serialized assets, cutting quarterly inventory time from roughly 30 hours to two hours while maintaining full accountability; scaled the model across four organizations, reclaiming an estimated 960 labor hours annually.
- Assumed acting executive leadership for 102 days during concurrent overseas operations, sustaining administrative and operational continuity for 568 personnel and supporting a 672-mile humanitarian logistics mission.

- Stabilized an underperforming operations division during a concurrent leadership transition by implementing performance standards and accountability controls, restoring full operational tempo within four months and passing two organizational evaluations.

Director of Training & Development | St. Robert, MO

01/2016 – 09/2019

Held functional authority for faculty development, instructor certification, instructional standards, curriculum quality, academic governance, instructor onboarding, and performance evaluation across a 138-person technical training organization delivering three concurrent workforce-certification programs.

- Directed faculty development for 138 instructors, conducting 306 formal evaluations and individualized development plans that produced 27 Senior Instructors and six Master Instructors.
- Selected for a concurrent organization-wide leadership role within the centralized instructor academy, evaluating, mentoring, and certifying 93 newly assigned instructors across multiple technical disciplines.
- Redesigned the instructor evaluation system across 69 lesson files and three programs totaling more than 768 academic hours per cycle, replacing inconsistent grading with a standardized developmental model adopted throughout the organization.
- Built a first-level technology support capability for four organizations and 516 personnel, restoring approximately 94% operational status across 220 computers and 32 classrooms and training four personnel to sustain the process.
- Named Instructor of the Year after competing across eight occupational fields for mastery of instructional delivery, technical knowledge, communication, and student development.

Additional Leadership Experience | Multiple Locations

12/2004 – 12/2015

Progressed through assignments in operations, international advisory, executive support, curriculum development, and workforce leadership across domestic and overseas environments.

- Advised and trained 136 Afghan border-security personnel in transportation, communications, equipment management, and field operations while participating in more than 70 joint missions.
- Led training and development for more than 5,700 entry-level personnel, supervised more than 7,000 hours of classroom and field instruction, and contributed to curriculum and evaluation-system redesign.
- Coordinated international executive travel, security planning, transportation, and government-agency liaison for senior organizational leadership.
